

CONCRETE PARKING LOTS: A LOT FOR YOUR MONEY®

*Winslow's Home Store
7211 Delmar
University City, MO*

Project Summary:

A 6,000 sq. ft. pervious concrete parking lot and patio was completed on April 15 to serve Winslow's Home Store at 7211 Delmar in University City, MO. The property owner consulted with the Concrete Council on the design of this project and chose pervious concrete because of its ability to reduce storm water runoff thereby making it a more environmentally responsible building material. The project used 100 cubic yards of pervious concrete and was completed by a NRMCA Certified Pervious contractor and ready mix company.

Owner: The Lipton Group

General Contractor: Ahal Contracting Co.

Ready Mix Supplier: Kienstra Enterprises

Size: 6,000 sq. ft.
100 cubic yards of pervious concrete used
