

Insulating Concrete Forms

Kostecki Residence
Herculaneum, MO

Benefits of Insulating Concrete Forms (ICF)

Stronger and Safer - Protection from hurricanes, tornadoes and earthquakes. Fire-resistant too. No CFCs HCFXs or formaldehyde, that means cleaner and healthier air.

Energy Efficiency - Exceptional insulation. Significant ongoing savings and increased personal comfort levels. Thermal performance values equivalent to , or better than, R-50 wood-frame construction.

Sound Reduction - Sound Transmission Class (STC) ratings of 50 and higher.

Construction Efficiency and cost-effectiveness - Ability to keep the building project on time and on budget.

Contractor: HIW Inc.

General Contractor: Roy Hartman

Wall System: ARXX System

Size: 3800 sq. ft.

Price: \$450,000
