

# STRENGTHEN YOUR STRUCTURE

## City of Arnold Community Recreation Center

### Project Description

The project included 3 separate pools and a spray ground equaling over 13,000 sqft of water surface. Pools consisted of lazy river, vortexes, underwater benches, bubble couches, play features, water slides, zero entries and spray features.

All pool floors were placed monolithically with the shotcrete process used to place the pool walls. It was the contractor's first shotcrete pool. Due to site logistics during shotcrete placement, the shotcrete pump had to be placed over 125 feet away from the point of placement.

Owner	City of Arnold
Architect	Hastings & Chivetta Architects Inc.
General Contractor	Capri Pools
Construction Manager	S.M. Wilson
Concrete Contractor	Vee-Jay Cement Contracting Company
Ready Mix Supplier	Raineri Building Materials
