### PROJECTS

Do you anticipate any upcoming projects for which you might consider concrete construction?  YES  NO

Project Description: \_\_\_\_\_

Current Status:  Pre Planning  Planning  Bid Expected Bid Date: \_\_\_\_\_

We would like to consider the following concrete techniques for this project:

- Structural  Tilt-Up  Pervious Pavement  Paving  Parking Lot
- Flowable Fill  Whitetopping/Overlays  Insulating Concrete Forms  Other \_\_\_\_\_

If your project includes a Parking Lot: would you like a free cost and design analysis?  YES  NO

### Concrete Projects that were influenced by the work of the Concrete Council

Project Description: \_\_\_\_\_

Influenced by:  Presentation: \_\_\_\_\_  information received: \_\_\_\_\_

### IN-HOUSE LUNCHTIME PRESENTATIONS (see back for complete list of topics)

Would you like to schedule an in-house Concrete Council presentation for your firm?  YES  NO

\* One hour of AIA and PDH units are available per topic.

### INFORMATION

Please send me information on the following concrete construction topic(s):

#### General Information

- Concrete Pavements  Pervious Pavement  Whitetopping (PCCP Overlays)
- Ready Mix Flowable Fill  Structural Concrete  High Strength Concrete
- Insulated Concrete Forms  Concrete Parking Lots  Other: \_\_\_\_\_

### RESEARCH

Do you require any type of concrete research or have a specific question or problem that you would like for us to research?  YES  NO

Please Describe: \_\_\_\_\_

You may respond by fax to 314-721-5083 or outside of St. Louis, 800-442-9903.

## CONCRETE IN-HOUSE PRESENTATION SURVEY

The Concrete Council is dedicated to quality concrete construction and would like to offer our informational resources and services to you. The Council has developed a number of in-house educational presentations. These programs are presented in your offices during lunchtime. The Council provides speakers from the industry along with informational materials (at no cost to you). All presentations will begin at noon and run for approximately one hour, we are also available to remain after for additional questions. 1 AIA credit or 1 PDH unit is also available upon request.

**You may respond by fax to 314-721-5083 or outside of St. Louis, 800-442-9903.**

### IN-HOUSE LUNCHTIME PRESENTATIONS

Would you like to schedule an in-house Concrete Council presentation for your firm?  YES  NO

TOPICS: *One (1) topic per presentation*

Our preferred dates or days of the week:

- Benefits of Concrete Pavement
- Cementitious Slags in Concrete Pavements
- Cold Weather Concrete for Pavements
- Durability of Concrete Pavements
- Hot Weather Concrete for Pavements
- Life Cycle Costs for Streets
- Pavement Joints
- Pavement Subgrade Considerations
- PCCP Overlays
- Pervious Pavement
  
- Building a Durable 50 year Parking Structure
- Structural Concrete Building Economics
- Structural Concrete Repair and Retrofit
- Environmental Engineering Concrete Structures - Review of ACI 350
- Horizontal Architectural Concrete
- Concrete Floor Flatness and Levelness
- Interior Decorative Concrete Floors
- Vertical Architectural Concrete
- High Strength Concrete
- Tilt-Up Construction: The Continuing Opportunity (for architects)
- Tilt-Up Engineering 101: Basics
- Tilt-Up Engineering 201: Advanced
  
- Fundamentals of Concrete
- Concrete Parking Lot Benefits - including Life Cycle Costs
- Concrete Parking Lot Analysis Software - training
- Insulated Concrete Forms for Commercial Buildings
- Insulated Concrete Forms for Residential Homes
- Use of Controlled Low Strength Material (Flowable Fill)
- Admixtures: Enhancement to Concrete
- Evaluation of Concrete Test Results
