Each year the Concrete Council of St. Louis awards three scholarships supported by the funding from the Concrete Council | Fenix Construction Company Golf Tournament and Silent Auction, held each September at Bogey Hills Country Club.

One scholarship is reserved for relatives of the Concrete Council member firm employees. The selection is made by the Board of Directors based on a standard application form. This scholarship is awarded at the end of the Concrete Council | Fenix Construction Golf Tournament and Silent Auction.

One scholarship is awarded to a student from Southern Illinois University at Edwardsville, and one scholarship is awarded to a student from the Missouri University of Science and Technology. Both of these scholarships are based on a recommendation by the head of the Concrete Construction Department at each of their respective schools. Scholarship recipients are judged by their department heads to be "most deserving and best able to utilize knowledge of concrete construction in their careers." These scholarships are presented at the annual Concrete Council | American Concrete Institute Of Missouri Quality Concrete Awards Dinner in April.

We are very proud that many of the scholarship recipients started their careers with member firms and have had the honor of presenting younger generations with the scholarship that they once received.

Thank you for contributing to the Concrete Council Scholarship fund and for your continued support of our organization!
